ANEXO I – NOTAS DE SERVIÇO

1. INTRODUÇÃO

O presente documento tem por objeto o Projeto de Integração do rio São Francisco com Bacias Hidrográficas do Nordeste Setentrional e por objetivo apresentar as Notas de Serviço do canal 1205 (CN01), conforme estabelecido no Relatório de Programação dos Serviços, número 1210-PTR-1001-00-00-001.

2. NOTAS DE SERVIÇO

Neste documento estão tabuladas as notas de serviço do trecho de canal 1205 (CN01), abrangendo as estacas 126+18,000 a 454+10,000, conforme desenhos de projeto 1210-DEP-1205-20-04-001 a 006 (planta e perfil) e 1210-DEP-1205-04-46-006 (seções transversais).

A revisão 3 abrange a modificação das bermas.

As notas de serviço encontram-se inseridas no Anexo I deste documento, sendo as mesmas representativas de duas situações distintas.

O Quadro 1 indica os pontos da seção acabada (proteções e revestimentos), exceto o revestimento de 10 cm de rocha alterada compactada e/ou cascalho a ser implantado nas vias de acesso. As figuras 2.1 e 2.2 ilustram os pontos de referência para as situações de corte e aterro, respectivamente.

O Quadro 2, por sua vez, indica os pontos correspondentes à seção de terraplenagem (corte e aterro).

Figura 2.1 – Indicações dos pontos para seção em corte

Figura 2.2 – Indicações dos pontos para seção em aterro
